# Healthy Environment

## ENERGY

We have 7 facilities that use some form of renewable or alternative energy. Our assets include 12.6 MW of energy:

We have 3 facilities more than 90% off the utility grid.

Our energy and waste efforts in 2021 reduced GhG emissions by 162,828 MTCO<sub>2</sub>E, equivalent to taking 34,633 cars off the road each year.

## WATER

Our SmartWash Solutions wash system utilizes 10% less water on processing lines compared to standard produce wash systems.

## PACKAGING

Earthbound Farm's trays are made from 100% PET – keeping 40 million pounds of plastic out of landfills every year

37% reduction in plastic with Earthbound Farm's new peel and reseal trays

95% of the Taylor Farms Foodservice films are recyclable COEX films

62% of retail products have How2Recycle labels

Taylor Farms was the first fresh food facility to achieve TRUE Platinum Zero Waste certification. Taylor Farms now has 5 facilities participating.

diverted from landfill through redesign, reduction, reuse, and recycling.

## 95% DIVERSION

from landfills, incinerators & the environment on average for the last 12 months.

To date, more than 5,000 employees have been trained on Taylor Farms Zero Waste efforts.

This program has instilled an added sense of pride and ownership amongst our employees.

**Zero Waste facilities reduce landfill generation by over 30% annually, on average.**
