A photograph of a retail shelf. The shelf is made of metal and has several items on it. On the left, there are some white papers or folders. In the center, there is a white sign with a black border and a blue water bottle icon. The sign contains text about reducing plastics and greenhouse gases. To the right of the sign, there are several packaged items, including what looks like a water filter and some pens or markers. Below the shelf, there are various water bottles and containers, including a black one, an orange one, a teal one, and a silver one. A small logo with the word 'MOM' is visible in the bottom right corner.
